TITLES AND SUBJECTS

Acid maltase deficiency in adults: diagnosis and management in five cases (Trend *et al.*), 845

Ageing effects on local rates of cerebral protein synthesis in Sprague-Dawley rats (Ingvar *et al.*), 155

Albinos, oculomotor behaviour of human (Collewijn *et al.*), 1

Alexander's disease: a disease of astrocytes (Borrett and Becker), 367

Allergic neuritis, experimental, changes in lymphocyte subsets in (Brosnan *et al.*), 315

Amiodarone neurotoxicity, pathology of, experimental studies (Costa-Jussà and Jacobs), 735

Amiodarone neurotoxicity, pathology of peripheral neuropathy in man (Jacobs and Costa-Jussà), 753

Amnesia, thalamic, anatomical basis of (von Cramon *et al.*), 993

Anatomical basis of symptomatic hemidystonia (Marsden *et al.*), 463

Aphasia: a comparison of two methods for treating word retrieval deficits in (Howard *et al.*), 817

Aphasia and handedness in relation to hemispheric side, age at injury and severity of cerebral lesion during childhood (Vargha-Khadem *et al.*), 677

Astrocytes, disease of, in Alexander's disease (Borrett and Becker), 367

Autotopagnosia: occurring in a patient without nominal aphasia and with an intact ability to point to parts of animals and objects (Ogden), 1009

Axonal sprouting, possibility of, in demyelinated optic nerves of mice infected with Semliki Forest virus (Tansey *et al.*), 29

Baroreceptor deafferentation (Fagius *et al.*), 423

Blepharospasm and oromandibular dystonia (Berardelli *et al.*), 593

Blood flow increase in the cerebral cortex during vestibular stimulation (Friberg *et al.*), 609

Brain glutamate decarboxylase in Parkinson's disease with particular reference to a premortem severity index (Monfort *et al.*), 301

Callosal agenesis: evidence for a qualitative limitation on visual transfer *via* the anterior commissure (Martin), 43

Callosal apraxia and pseudoneglect with magnetic resonance imaging (Watson *et al.*), 535

Central nervous system involvement in *Schistosoma mansoni* and *S. haematobium* infection (Scrimgeour and Gajdusek), 1023

Centronuclear (congenital myotubular) myopathy (Heckmatt *et al.*), 941

Cerebellar atrophy, retrograde crossed (Chung), 881

Cerebral blood flow in man, importance of arterial oxygen content in its regulation (Brown *et al.*), 81

Cerebral somatosensory potentials evoked by muscle stretch, cutaneous taps and electrical stimulation of peripheral nerves in the lower limbs in man (Cohen *et al.*), 103

Cervical spondylosis, somatosensory evoked potentials in (Yu and Jones), 273

Cervical syringomyelia, posttraumatic (Rossier *et al.*), 439

Changes in lymphocyte subsets during the course of experimental allergic neuritis (Brosnan *et al.*), 315

Choreiform dyskinesia, experimental (Mitchell *et al.*), 405

Chronic optic nerve compression: an experimental study (Clifford-Jones *et al.*), 241

Clinical and neuropathological criteria for the diagnosis and staging of diabetic polyneuropathy (Dyck *et al.*), 861

Coma, migraine (Fitzsimons and Wolfenden), 555

Congenital myotubular (centronuclear) myopathy: a clinical, pathological and genetic study in six children (Heckmatt *et al.*), 941

Contribution to the anatomical basis of thalamic amnesia (von Cramon *et al.*), 993

Cortical myoclonus (Obeso *et al.*), 193

Crossed cerebellar atrophy, retrograde (Chung), 881

Deafness in relation to neuro-otological abnormalities in xeroderma pigmentosum (Kenyon *et al.*), 771

Dementia, subcortical, with frontal cortex hypometabolism (D'Antona *et al.*), 785

Demyelinating diseases, spatiotemporal responses of the visual system in (Medjbeur and Tulunay-Keesey) 123

Demyelination in the optic nerves of mice infected with Semliki Forest virus and the possibility of axonal sprouting (Tansey *et al.*), 29

Diabetic polyneuropathy: clinical and neuropathological criteria for diagnosis and staging (Dyck *et al.*), 861

Dystonia, oromandibular, and blepharospasm (Berardelli *et al.*), 593

Effects of ageing on local rates of cerebral protein synthesis in Sprague-Dawley rats (Ingvar *et al.*), 155

Effects of L-DOPA on regional cerebral blood flow and oxygen metabolism in patients with Parkinson's disease (Leenders *et al.*), 171

Experimental allergic neuritis, changes in lymphocyte subsets during course of (Brosnan *et al.*), 315

Eye movements in albinism (Collewijn *et al.*), 1

Focal increase of blood flow in the cerebral cortex of man during vestibular stimulation (Friberg *et al.*), 609

Frequency discrimination, temporal, in optic neuritis and multiple sclerosis (Plant and Hess), 647
Frontal cortex hypometabolism in subcortical dementia (D'Antona *et al.*), 785
Fundamental importance of arterial oxygen content in the regulation of cerebral blood flow in man (Brown *et al.*), 81

Giant somatosensory evoked potentials in progressive myoclonic epilepsy (Shibasaki *et al.*), 225
Glossopharyngeal and vagus nerve anaesthesia, sympathetic outflow in man following (Fagius *et al.*), 423
Glutamate decarboxylase in brain in Parkinson's disease (Monfort *et al.*), 301

[^{3}H]-2-deoxyglucose uptake in experimental chorea (Mitchell *et al.*), 405
Handedness and aphasia in relation to hemispheric side, age at injury and severity of cerebral lesion (Vargha-Khadem *et al.*), 677
Hemidystonia, symptomatic, anatomical basis of (Marsden *et al.*), 463
Huntington's disease patients and normal subjects, long-loop reflexes in small hand muscles in (Noth *et al.*), 65

Illusory movements produced by electrical stimulation of low-threshold muscle afferents from the hand (Gandevia), 965
Immunocytochemical localization of Na^+, K^+-ATPase in the canine choroid plexus (Masuzawa *et al.*), 625
Impairment of olfactory recognition after closed head injury (Levin *et al.*), 579
Involvement of the central nervous system in *Schistosoma mansoni* and *S. haematobium* infection (Scrimgeour and Gajdusek), 1023

L-DOPA, effects on regional cerebral blood flow and oxygen metabolism in patients with Parkinson's disease (Leenders *et al.*), 171
Leprous neuropathy patients and normal subjects, weight appreciation in the hand in (Raj *et al.*), 95
Lesions of premotor cortex in man (Freund and Hummelsheim), 697
Long-loop reflexes in small hand muscles studied in normal subjects and in patients with Huntington's disease (Noth *et al.*), 65
Low-threshold muscle afferents from the hand electrically stimulated to produce illusory movements (Gandevia), 965
Lymphocyte subsets, changes in during the course of experimental allergic neuritis (Brosnan *et al.*), 315

Magnetic resonance imaging (MRI, NMR) scan in a case of callosal apraxia and pseudoneglect (Watson *et al.*), 535
Membrane lamellation (Beck *et al.*), 153
Membrane lamellation in brain unrelated to spongiform encephalopathy (Gray), 139
Meningitic migraine with cerebral oedema associated with a new form of autosomal dominant cerebellar ataxia (migraine coma) (Fitzsimons and Wolfenden), 555
Migraine coma: meningitic migraine with cerebral oedema associated with a new form of autosomal dominant cerebellar ataxia (Fitzsimons and Wolfenden), 555
Multiple sclerosis and optic neuritis, temporal frequency discrimination in (Plant and Hess), 647
Myoclonic epilepsy, pathogenesis of giant somatosensory evoked potentials in (Shibasaki *et al.*), 225
Myoclonus, cortical (Obeso *et al.*), 193
Myotubular (centronuclear) myopathy, congenital (Heckmatt *et al.*), 941

Na^+, K^+-ATPase, immunocytochemical localization in the canine choroid plexus (Masuzawa *et al.*), 625
Neuro-otological abnormalities in xeroderma pigmentosum with particular reference to deafness (Kenyon *et al.*), 771
Nonhaemorrhagic thalamic infarction: clinical, neuropsychological and electrophysiological findings in four anatomical groups defined by computerized tomography (Graff-Radford *et al.*), 485
Note on membrane lamellation (Beck *et al.*), 153

Ocular motor control in Parkinson's disease (Bronstein and Kennard), 925
Oculomotor behaviour of human albinos (Collewijn *et al.*), 1
Olfactory impairment after closed head injury (Levin *et al.*), 579
Optic nerve compression, chronic (Clifford-Jones *et al.*), 241
Optic neuritis and multiple sclerosis, temporal frequency discrimination in (Plant and Hess), 647
Oromandibular dystonia and blepharospasm (Berardelli *et al.*), 593
Oxygen content, arterial, in the regulation of cerebral blood flow in man (Brown *et al.*), 81
Oxygen metabolism and regional cerebral blood flow after L-DOPA treatment in patients with Parkinson's disease (Leenders *et al.*), 171

Parkinson's disease, brain glutamate decarboxylase in (Monfort *et al.*), 301
Parkinson's disease, predictive ocular motor control in (Bronstein and Kennard), 925
Pathogenesis of giant somatosensory evoked potentials in progressive myoclonic epilepsy (Shibasaki *et al.*), 225
Pathology of amiodarone neurotoxicity. I. Experimental studies with reference to changes in other tissues (Costa-Jussà and Jacobs), 735
Pathology of amiodarone neurotoxicity. II. Peripheral neuropathy in man (Jacobs and Costa-Jussà), 753
Pathophysiology of blepharospasm and oromandibular dystonia (Berardelli *et al.*), 593
Pattern and extent of demyelination in the optic nerves of mice infected with Semliki Forest virus and the possibility of axonal sprouting (Tansey *et al.*), 29
Posterior fossa subdural empyema (Morgan and Williams), 983

Postgeniculate damaged patients, visual field recovery from scotoma in (Zihl and von Cramon), 335
Posttraumatic cervical syringomyelia: incidence, clinical presentation, electrophysiological studies, syrinx protein and results of conservative and operative treatment (Rossier *et al.*), 439
Predictive ocular motor control in Parkinson's disease (Bronstein and Kennard), 925
Premotor cortex lesions (Freund and Hummelsheim) 697
Prevalence and pattern of spinocerebellar degeneration in North-eastern Libya (Sridharan *et al.*), 831
Protein synthesis, cerebral, in Sprague-Dawley rats: effects of ageing (Ingvar *et al.*), 155
Pseudoneglect and callosal apraxia with magnetic resonance imaging (Watson *et al.*), 535

Qualitative and quantitative morphology of human sural nerve at different ages (Jacobs and Love), 897
Qualitative limitation on visual transfer *via* the anterior commissure: evidence from a case of callosal agenesis (Martin), 43

Reflexes, long-loop, in small hand muscles, studied in normal subjects and in patients with Huntington's disease (Noth *et al.*), 65
Regional cerebral blood flow and oxygen metabolism after L-DOPA treatment in patients with Parkinson's disease (Leenders *et al.*), 171
Retrograde crossed cerebellar atrophy (Chung), 881

Schistosoma mansoni and *S. haematobium* infection, central nervous system involvement from (Scrimgeour and Gajdusek), 1023
Scotoma, visual field recovery from, in patients with postgeniculate damage (Zihl and von Cramon), 335
Semliki Forest virus-induced demyelination in the optic nerves of mice (Tansey *et al.*), 29
Sodium-potassium ATPase, immunocytochemical localization in the canine choroid plexus (Masuzawa *et al.*), 625
Somatosensory evoked potentials, giant, in myoclonus (Shibasaki *et al.*), 225
Somatosensory evoked potentials in cervical spondylosis: correlation of median, ulnar and posterior tibial nerve responses with clinical and radiological findings (Yu and Jones), 273
Somatosensory potentials, cerebral, evoked by muscle stretch, cutaneous taps and electrical stimulation of peripheral nerves in the lower limbs in man (Cohen *et al.*), 103
Spatiotemporal responses of the visual system in demyelinating diseases (Medjbeur and Tulunay-Keesey), 123
Spectrum of cortical myoclonus: from focal reflex jerks to spontaneous motor epilepsy (Obeso *et al.*), 193
Spinocerebellar degeneration in North-eastern Libya (Sridharan *et al.*), 831
Spongiform encephalopathy, membrane lamellation in brain unrelated to (Gray), 139
Subcortical changes in the regional uptake of [^{3}H]-2-deoxyglucose in the brain of the monkey during experimental choreiform dyskinesia elicited by injection of a gamma-aminobutyric acid antagonist into the subthalamic nucleus (Mitchell *et al.*), 405
Subcortical dementia: frontal cortex hypometabolism detected by positron tomography in patients with progressive supranuclear palsy (D'Antona *et al.*), 785
Subdural empyema, posterior fossa (Morgan and Williams), 983
Substance P and the sensory innervation of intracranial and extracranial feline cephalic arteries: implications for vascular pain mechanisms in man (Norregaard and Moskowitz), 517
Sural nerve morphology in humans (Jacobs and Love), 897
Sympathetic outflow in man after anaesthesia of the glossopharyngeal and vagus nerves (Fagius *et al.*), 423
Syringomyelia, posttraumatic cervical (Rossier *et al.*), 439

Temporal frequency discrimination in optic neuritis and multiple sclerosis (Plant and Hess), 647
Thalamic amnesia, anatomical basis of (von Cramon *et al.*), 993
Thalamic infarction, nonhaemorrhagic (Graff-Radford *et al.*), 485
Treatment of word retrieval deficits in aphasia: a comparison of two therapy methods (Howard *et al.*), 817
Tympanic membrane sensation (Saunders and Weider), 387

Vagus and glossopharyngeal nerve anaesthesia, sympathetic outflow in man following (Fagius *et al.*), 423
Vascular pain mechanisms in man, implications from substance P concentrations in feline cephalic arteries (Norregaard and Moskowitz), 517
Vestibular stimulation causing focal increase of blood flow (Friberg *et al.*), 609
Virus-induced demyelination in mouse optic nerve and the possibility of axonal sprouting (Tansey *et al.*), 29
Visual contrast sensitivity in demyelinating diseases (Medjbeur and Tulunay-Keesey), 123
Visual field recovery from scotoma in patients with postgeniculate damage: a review of 55 cases (Zihl and von Cramon), 335
Visual interhemispheric transfer: evidence from a case of callosal agenesis (Martin), 43

Weight appreciation in the hand in normal subjects and in patients with leprous neuropathy (Raj *et al.*), 95
Word retrieval deficits in aphasia: two therapy methods compared (Howard *et al.*), 817

Xeroderma pigmentosum, neuro-otological abnormalities in (Kenyon *et al.*), 771
